BANNER STEALING?

The American Square Dance has always epitomized the best in "good ol' fashioned hospitality and friendship." As we dance "around the square" by visiting many of the area clubs, we discover that getting to know our square dance neighbors is as much fun today as it was 200 years ago. "Stealing" another club's banner has become the standard form of club visitation these days. It has been noted on occasion that some folks are not clear on protocol regarding the stealing and/or retrieving of a club banner. The following guidelines were obtained from the Central Florida Square and Round Dancers Assoc. and presented herewith in the spirit of keeping all our square dance friends informed. One parting thought — Stealing a banner is fun, but it should not be the only reason for visiting another club. Remember, the original idea, which was a good one, was to **share** the joy of square dancing with new and old friends. So, whether you come away with a club banner or not, you are the winner if you added to the fellowship of the evening. Happy dancing. — The Editor.

REQUIREMENTS:

- 1) A banner may be stolen by a minimum of one full square, in good standing as club members, displaying club badges of the club they are representing and pay guest admission.
- 2) The banner can be stolen only on a regular club dancing night.
- 3) If two clubs appear on the same night to steal a banner from the same club, the first visiting club to announce their intention to steal a banner to the host club's president (or the highest ranking officer present), will be allowed to steal the banner.
- 4) If a club attempts to steal a banner and if the banner is not at the location of the dance, the visiting club may take a substitute article of the host club president's choice, from the president or his wife. If the president or his wife is not present, then the substitute article may be taken from the highest ranking officer present, or his wife.
- 5) The banner may be retrieved by the owner club by observing requirement Number 1.
- 6) A club cannot retrieve their banner and steal a club banner at the same time, even if more than the minimum visitors are present.

- 7) No recovering group can retrieve more than one banner per evening.

ETHICS:

- 1) A club will not steal a banner from another club more often than one time every six months.
- 2) A club will not travel more than 60 miles to steal a banner, except by the invitation of the intended host club.
- 3) A club, having had its banner stolen, will make every effort to recover the banner in a reasonably short period of time. If a club does not recover its banner in six months, the banner shall be returned to the owner club.
- 4) If a banner is stolen, the officials of the host club should be notified of the date, time and place the visiting club has its regular dances.
- 5) A club will not have more than one travel banner.
- 6) If a traveling banner has been stolen, the club will not display its club banner, except at special dances.
- 7) A club cannot steal a banner or retrieve its banner when their club caller is guest caller of the club they are visiting.
- 8) If a large group is traveling to steal a banner it is strongly recommended that the host club be notified.

New Quarterly Movement

ONLY ONE EXPERIMENTAL BASIC has been selected by the CALLERLAB Mainstream Experimental Basics Committee for the months of January, February and March. The movement selected is Extend (the tag).

Extend (the tag) by Jimmy Davis. The present usage of Extend the Tag is best described as the ability to move from one ocean wave formation to another wave formation. All dancers in the ocean wave will step through and form an ocean wave with the couples they are facing. If the extension leaves dancers facing out, they remain facing out. The action is most common from a wave between two couples as in the formation set up by having the heads pass the ocean. It is also used after a fractional tag the line figure to extend into a different formation. Get acquainted examples:
