FROM THE EDITORS DESK

HAPPY NEW YEAR TO YOU AND YOURS!! With a lot of good dancing in the New Year. We have some of the best callers around in our area!! How lucky we are! There are so many good dances planned for the New Year. Don't forget the State Convention in May and the Fall Fun Fest in October . We didn't get news from some of the clubs this month, hope to hear from you next month. Thanks, for keeping your news cut down to about 50 words. We know it's hard to do. Today, I got a letter from a couple in Penn. that came to our area to dance and was very upset because they went a dance that was closed and it wasn't advertised as so. They were left standing on the floor without anyone squaring up with them. That is why we are taking all closed dances and workshops out of this maga zine, so if a stranger can not get in your square in your club please advise us so we can delete it, so a dancer won't go to closed dance unknowling because it was listed in the West Coast Dancer. PLEASE MAKE OUR WINTER VISITORS WELCOME!! Hope to see you in a square.

Harold & Carolyn Mercer

CALLERLAB for the first quarter of 1977

The Callerlab Mainstream Experimental Basics Committee selected one experiemntal basic for the coming quarter. EXTEND THE TAG by Jimmy Davis. The present use of EXTEND THE TAG is best described as the ability to move from one ocean wave to another wave formation. All dancers in the ocean wave will step thru and form an ocean wave with the couples they are facing. If your extension leaves you facing out, then remain facing out..... The acton is most common from a wave between two couples as in the formation set up by having the HEADS PASS THE OCEAN. Also used after a fractional Tag the Line figure to extend into a different formation.....  
 Get acquainted example: Heads pass the ocean... Extend(to a wave) girls trade.... recycle...pass to the center...pass thru..left alle.
