July 11. 8:00 pm. Jack Pladdys Update

GREAT News!!!! My phone rang this afternoon- I could tell it was from Sherry. Imagine my surprise when the voice on the other end was Jack!!!!!!!!!!

His voice was very weak, and he was very hoarse, but he was able to talk!

The doctors are very pleased with his improvement, and he may get out of the ICU in a couple of days.

Bottom line- He ain't out of the woods yet but we can see the light at the end of the tunnel
