Joys, Concerns, & Sympathies

Concerns

Jack Hoffman Update

Jack has lung cancers and has had some radiation treatments for it. While they were in Waco, [Texas], he was taken to the emergency room and it was discovered the cancer had metastasized to his brain. They were instructed to get him home ASA and get him to his oncology team in Orlando. They got home on June 30th. They put him into the VA hospital at Lake Nona and started him on radiation treatments and trying to get his nausea under control, etc. 's undergoing some physical therapy while he continues radiation treatments on his brain. The goal is to get him through his radiation and strong enough to be able to come home where we can take care of him there.

He is allowed to have visitors and I know he would enjoy seeing everyone. He is at Oak Tree Village, Room G24 in the Community Living Center behind the V Hospital in Lake Nona.

Cards are also welcome and can be sent to 550 Captains Row, Merritt Island, Florida 32952.

Sympathies

Word has been received about the passing of **Sandra Sheen McCall** a member of Palace Promenaders in Arcadia.
