

Cue Sheets by Judy Barnhill

"Blue Moon Of Kentucky" is a song written by Bill Monroe. It has been recorded by many artist, and this version is sang by Patsy Cline. I found some interesting information about Patsy I thought you would like to know.

Her name was Virginia Patterson Hensley but changed it to Patsy Cline in 1952 at the age of 20 when she began performing. When she was around 8 years of age, she taught herself to play the piano and that beautiful booming voice happened at age 13 when she suffered a serious throat infection.

Dorothy Sanders, a cuer from Kentucky, has choreographed an easy two step to this song. I purchased the music from iTunes and the cue sheet is on Roundalab.org.
